Feathers

**Describe everything
you see in this picture.**

George thinks it would be funny to see birds wearing clothes. It would be even funnier to see us wearing feathers. Both clothes and feathers can keep you warm and dry, but birds never have to change their feathers.

Glossary

camouflage: hiding something by making it look like its surroundings

mammals: warm-blooded animals that feed their babies with the mother's milk

shaft: long, narrow, center part of a feather

waterproof: protected from water
